Shuftul Shuftul (, also Romanized as Shūftūl, Shofutūl, and Shoftūl; also known as Shūfītūl, Shufitūl, and Shufītūl) is a village in Gavdasar Rural District, in the Central District of Arsanjan County, Fars Province, Iran. At the 2006 census, its population was 180, in 44 families. References Category:Populated places in Arsanjan CountyQ: Why does my iPhone app crash during iAd Banner view appearance? I have a situation where iAd banner appears, it display briefly and crashes the app. it is built for iPhone 4S, iOS 6. I can't see any error in console, but it simply crashes the app. A: The answer to my question is described in this blog post. Also see the reason of the crash in comments. Quote The crash is a bug in the UIKit framework in iOS 6.0.1. You have to ignore it or do a little workarounding to get the ads to display. Basically, if you want the ads to display, you have to "persist" them before they disappear. The ad is very expensive to create, so the designers tried to make it only appear once, and then tear it down 77a5ca646e

#### What's New in the?

Avant Browser is a comprehensive and efficient web explorer that is based on Trident, Gecko and Webkit (the engines behind IE, Firefox and Chrome). This enables you to easily choose the preferred or the most appropriate rendering engine for your current browsing session. Avant Browser features numerous functions and options, saving you from the trouble of constantly having to install browser extensions. You can even use it for downloading videos to your computer from a web page, in just moments. Another important function of this web browser is its ability to instantly start private sessions, so you can protect your Internet privacy. Moreover, you can create an AutoFill section within the browser, by entering the information that is most often requested when shopping online or registering on various websites. This spares you from having to enter the same details repeatedly. And of course, all your information can easily be password-protected. Avant Browser provides you with a 'Split View' mode, thus allowing you to work in parallel with two different websites, without having to constantly switch from one to the other. Using Avant Browser, you can set it to clear all browsing history, cookies or typed web addresses when existing. It also allows you to only clear specific records, so you can still save the things you might later need, like auto-complete passwords or search keywords. A relevant function of Avant Browser is the fact that it allows you to disable Flash animations and sounds when exploring web pages, or enable the built-in 'AD Blocker', thus speeding up the loading time of web sites.
