## Noos Folder Protector Free

-- Noos Folder Protector - Easy to use and efficient folder locker -- Key Macro Assistant - Make use of multiple keyboard shortcuts for Windows -- Noos Folder Protector - Protects folders using a password -- Noos Folder Protector - Easy to use and efficient folder locker -- Noos Folder Protector - Protects folders using a password -- Noos Folder Protector - Easy to use and efficient folder locker

-- Noos Folder Protector - Protects folders using a password  
What's new in this version: Updater v1.2.0.0 - - Fix some problems  
Updater v1.1.0.0 - - Fix some problems Updater v1.0.0.0 - - First release Requirements: Windows Vista, 7, 8, 8.1, 10 Review: Noos Folder Protector is one of those applications that appear to be forgotten by the time the actual user realizes that he needs it. However, it's not as easy to find and download as some others. It has been around for a while now and is an easy-to-use folder locker, although the interface is not the best. Version 1.1.0.0 is the latest edition, the first one with an installer. There's no need to hunt for the old.EXE archive, and if you run it, it'll tell you that it's now offering to update itself. This is a good thing for Noos Folder Protector, as it doesn't require the user to re-download the software for it to perform the next task. The interface was updated a bit too, though the installation process is now more intuitive, and the application is now available in three languages (Dutch, French and Spanish). What's new in this version: Updater v1.1.0.0 - - Fix some problems Updater v1.0.0.0 - - First release Requirements: Windows Vista, 7, 8, 8.1, 10 Review:

## Noos Folder Protector Crack + Full Version

The folder locker application called "Noos Folder Protector" is designed to help you protect your privacy by locking folders with a password. With this software, you can easily lock or unlock your folders or encrypted folders with a password. The purpose of the tool is to make it difficult for other people to access your private files and folders, so you don't have to worry about someone to steal your important documents without your knowledge. It's especially designed for people who are concerned about the security of their own folders. Each folder is considered as an "object", so it's also possible to protect several folders with a single password. The tool features a small window, where you can set or change a folder password. It's not possible to unlock the folders by double clicking them or browsing them in Windows Explorer, so you have to use the Noos Folder Protector to unlock the folders manually. The text and buttons in the window are very small, and the font is also hard to read, so you can't increase the size. When the folders are locked with a password, their icons are changed in Windows Explorer to a yellow locker, so you can easily tell which ones are protected or unprotected. The password can set or changed from the right-click menu that can be opened from the locker button in the main window. The shortcut can be set or changed from the keyboard, to quickly lock or unlock folders. Pros: - Easy-to-use application designed to protect your privacy by locking folders with a password. - Works without any issues and it doesn't take much time to install. - Provides all the essential features a folder locker should offer. - Save files are protected when stored in a protected folder with a password. - The tool protects folders by changing their icons in Windows Explorer. - Can work without .NET Framework, since it's required by Windows Vista. - Locked folders remain locked, so you don't have to worry about their security. - Can quickly lock or unlock folders by using a keystroke combination or a specific menu. - Noos Folder Protector can set or change a password for several folders at a time. - It's not possible to unlock the folders by double clicking them in Windows Explorer. - The program can be uninstalled, so you can easily gain access to the protected folders by reinstalling it. - All your files and folders are protected and secure. Cons: - Can only be used in Windows Vista.
