System Requirements For FtpDownloader:

* PowerPC Macintosh (G3 or better) * OS X 10.5 (32-bit) or later * 2GB RAM (4GB or more recommended) I'm happy to see that in the years since BeOS R5 came out, an independent OS has been made that runs on modern Mac hardware. But it's important to remember that BeOS is not for everyone. It took a brave person to take on such a project. It was a crazy gamble, and it was probably wise to have paid someone to port R5 (paid
