How long can market share last? Fourteen years is a long time in any business but, when you are in a highly competitive market, it can be absolutely exhausting. After all, what is a little bruised self-esteem when you could be saving a lot of money, developing a better range of products, expanding into a new market, or maximising your profits? And, while 14 years in a competitive market might seem like a lifetime, in reality it is just one long year. So, how do you tackle the end game in your business? By being proactive Being proactive means to act or intend to act in a certain way, or to make an active effort to solve a problem. Being proactive can also help the customer have a good experience and feel valued by your company. Given the enormous economic costs entailed by inflexible companies, being a proactive business, either by improving the products themselves, eliminating excess inventory, lowering the price of products or doing something completely different, can be an incredibly competitive strategy. "It's hard to please everyone but it's very easy to please a large number of people. So, while you may not be able to earn the love and attention of everyone, at least you can do well enough to earn the love and attention of many." -Zig Ziglar Honing your approach When it comes to online marketing, it is important to hone in on what your intended
