What's new in Elden Ring:

The Legend of Dragoon 2004/10/1 1 HEROMasterpiece [2] The Legend of Dragoon / Dragone no Yami / Dragone no Yume [3] Missile Room [4] Solataire [5] Gain Ground [6] Screen Shots 1. The Back Cover The Legend of Dragoon is a space RPG which allows users to experience the excitement of virtual space battles. In the game, "WORLD ERASURE" runs on the PS2 platform, allowing users to experience the exhilarating thrill of space battles in diverse environments. Although "WORLD ERASURE" is a single player game, its storyline is multi-layered, allowing users to enjoy an active role of virtually becoming many different characters by selecting a series of "quests" and forming a cooperative party. The game also allows users to have side-quests in order to explore the vast world of "WORLD ERASURE." The themes are medieval-inspired, with a feeling of beautifully drawn stone buildings and old-fashioned items. At the same time, the designs, which are inspired by Japanese culture, have a modern flare and tones of expressionism and Japanese anime. 2. Map of the Largest World in the Universe This is the true representation of the incredible universe created by the game "WORLD ERASURE." The maps in the game are not limited to the basic star systems in the game, and it represents the Spacetime of this game with a level of detail that cannot be achieved in reality. This map is basically the game world, but naturally it cannot be possible to obtain this map in real space (in the real world, the universe is thought to be flat), and it is possible only in the game. 3. Screenshots By combining the background music, remonstrations and character portraits, the game world is seamlessly connected. The space, which is the home of DRAGOOON, feels like it is in real space-- users will perceive the game world in a realistic way, which

will gradually connect the user to the game in-game. 4. The Battle System The space battle system in the game "WORLD ERASURE" is closely related to "Dragoon no Yami" (a fantasy space battle game for Microsoft Windows in the past). In the distance,
