WINDWOS 7 ROG RAMPAGE 64-Bit (SP1) By Neuropass KeygenQ: Microsoft Graph ADAL Token I have a problem to get an access token from Microsoft Graph I created an app named "Calendar" and i configured it to use ADAL, my problem is that i don't know how to get a token from Microsoft Graph and also i don't know if this app can be used by another service like azure functions this is my code :

```
const creds = { "client_id": "Calendar",  
  "client_secret": "*****", "resource": "" }; const  
authenticationContext = new AuthenticationContext( "",  
  creds ); const tokenHandler =  
  authenticationContext.acquireToken( "",  
  "user_impersonation" ); console.log("access token : " +  
  tokenHandler.getAccessToken().getAccessToken()); A:  
  You should use Graph API, not Microsoft Graph API.  
  Microsoft Graph API is used to manage Microsoft 365  
  accounts, companies and business units (e.g. Microsoft  
  Dev Essentials, Microsoft Teams). Try this: const  
tokenHandler = authenticationContext.acquireToken( "",  
  "user_impersonation" ); /* * /MathJax/jax/output/HTML-
```
