Hi friends. I am working on a machine and having these 2 problems. 1. I am not able to start batch process. 2. The batch process gets terminated. There are 2 error messages are appearing as below. 1) ps:Could not start the process You must be administrator. 2) Can't start the process. Exception: Cannot start application 'EEHCTLBSTACK.EXE': The process cannot access the file because it is being used by another process. Attached please find the log files. Please help me in identifying and solving these errors. Thanks in advance. Hi, Sorry for the delay in getting back to you. I took a closer look at your log files and I did not find anything that would directly lead me to the root cause of the issue. This leads me to believe that you have a corrupt file. There may be something in the log files that could help you in troubleshooting and finding the root cause. Please see the following links: The PS: command is to help troubleshoot the process. If the process is not running you could try loading the application manually in the tray. If the application won't start you may need to locate and repair the file being used by another process. Please take a look at the contents of the log files and let me know
